

Gear Repair Process (Colorado & Pennsylvania Facilities)

Step 1: Email Photos Before Shipping Items

Send clear photos to USRepairs@gearrestore.com:

- A photo of the full front of the item
- A photo of the full back of the item
- Close-up photo(s) of the damaged area(s)

These help us provide an accurate estimate and avoid unnecessary return shipping.

Step 2: Prepare and Clean Your Gear

All items must be fully cleaned before sending. We recommend using outerwear-specific detergents or odor eliminators. If your item arrives unhygienic or with strong odors, it will be returned or incur a cleaning fee. Repairs will not begin until gear is clean.

Step 3: Fill Out the Repair Form

Use the provided diagrams to mark damaged areas with an X. If your item isn't a jacket or pants (e.g., sleeping bag or backpack), provide a drawing of your item and indicate areas needing repair.

Print out the form and ship it with your gear.

Step 4: Estimate and Approval

We will send an estimate once we receive your photos. **Do not** ship your item until you review and approve the estimate.

Step 5: Ship Your Item

Once you approve the estimate, ship your gear using a pre-paid and tracked shipping method and include the repair form inside the package. We are not responsible for lost or untracked items and therefore, we recommend using tracked shipping method for safe delivery.
